This list cancels all other lists. We are just getting out a small price list instead of an expensive catalog. It is true that nursery stock is high compared with what it used to be, but the cost of production is very much higher now as the cost of labor is several times higher than it used to be.

We have a fine stock of trees, shrubs, roses and evergreens and would advise early orders as some kinds are scarce and hard to get. Our aim is to handle the very best of each kind of trees suited for this climate.
